

MMC Market

Giving Visibility into the Offsite Construction Supply Chain

Confidential and Proprietary. Copyright (c) by matterlab Ltd. All Rights Reserved.

Introduction

Mark Thorley

Co-Founder & CEO

The first, purpose-built software platform for offsite, bridging the gap between design, manufacturing and construction.

KOPE accelerates the shift away from traditional construction by enabling the design, specification and procurement of offsite products and systems.

Modern Construction

Construction needs to evolve to become more modern, agile and digitally enabled.

Modern Methods of Construction (MMC) is moving the industry towards pre-manufactured solutions and digital technologies.

Ultimately, client confidence in and demand for MMC solutions is the key to driving scale and maturity into the MMC sector.

77% of developers aim to use MMC in the next three years but have reservations about, technical performance, securitisation, funding constraints and the resilience of the supply chain.

**Cast Developers Survey
data, 2021**

Barriers to MMC

- Concerns around changing procurement mechanisms and ownership of liability & risk.
- Lack of established supply chains for MMC.
- Low productivity and poor visibility of available products, services, standards and prices.
- Lack of understanding on what the supply chain can offer early enough in the project to allow for its inclusion.

Introducing the MMC Market

The home of Modern Construction

The MMC Market is a free and searchable database of MMC in the UK, which:

- connects developers and clients with MMC solutions providers, specialist consultants and turnkey contractors
- showcases the positive outcomes achieved by high-quality MMC projects.

Our goal is to build a vital piece of infrastructure for the construction industry.

MMC Market aims to **increase transparency and grow confidence** in the sector's ability to fund, develop and construct successful MMC projects.

The screenshot displays the MMC Market website interface. At the top, there is a navigation bar with logos for KOPE Cast and MMC Market, and a 'Register for free' button. Below the navigation bar is a large banner image of a modern industrial building interior with the text 'Explore & connect with the UK's MMC sector'. The main content area features a search bar with tabs for 'Suppliers', 'Consultants', and 'Projects'. The search results are for 'Floor Cassettes'. Below the search bar, there are filters for 'Location' (Find Suppliers within: Nationwide), 'Certifications' (BOPAS, NHBC Asspects, Premier Guarantee), and 'Popular Category' (Volumetric LGSF, Glulam Beams, Bathroom Pods (LGSF), SIPS (Timber), Lift Shafts (LGSF), Riser Modules, Roof Trusses (Timber Frame), Steel Screw Piles, and Brick Slip Systems). There is a 'Show more' link under the certifications. Below the filters, there is a section 'Find Suppliers by MMC category' with eight category tiles: Volumetric Systems (Category 1), 2D Structural Systems (Category 2), Non Systemised Structure (Category 3), 3D Printed Systems (Category 4), Assemblies (Category 5), Product-Based Improvements (Category 6), Site-Based Improvements (Category 7), and View All Suppliers (Show everything). Below this is a section 'Find Suppliers by Location' with a map of the UK showing 129 manufacturing facilities. There is a search bar for the map and a link 'Not in the UK? No problem!'. Below the map is a section 'Recently Added Suppliers' with three supplier cards: ChangeMaker 3D Ltd, Etopia, and Natural Building Systems. At the bottom of the page, there is a footer with 'Terms of Service', 'Login', 'Copyright Notice 2022', 'About MMC Market', and 'Contact Us'.

Registration

Benefits

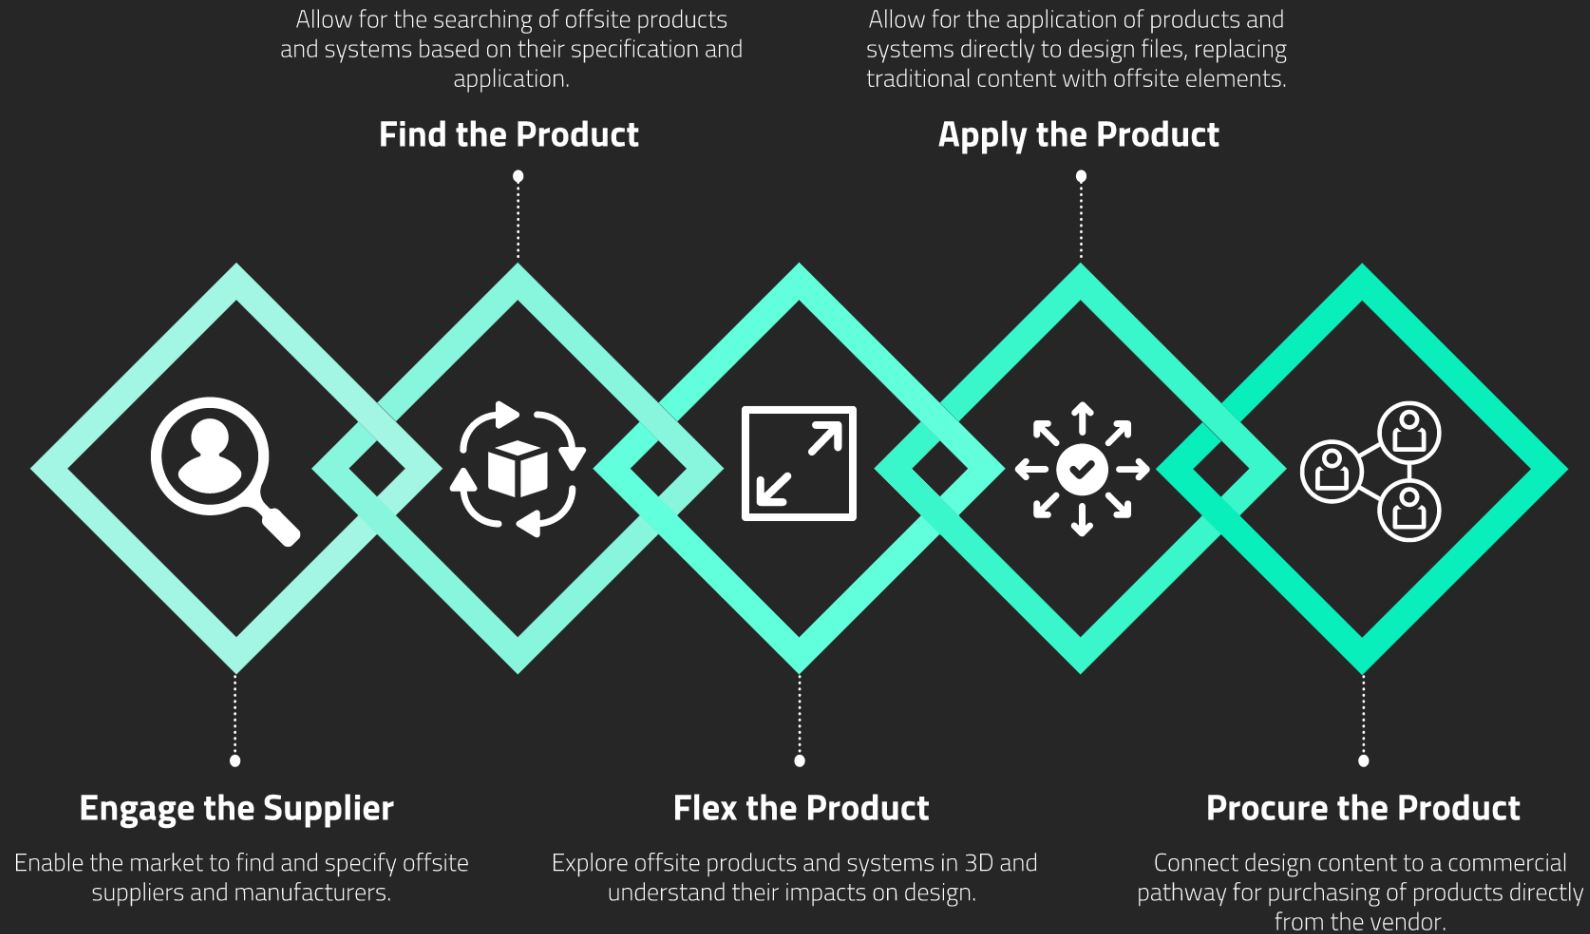

How does the MMC Market help manufacturers?

- Allow organisations to engage with you with confidence and assurance.
- Showcase your work and build up brand awareness to generate marketing leads and inbound sales opportunities.
- Increase specification of your products by providing easier access to those designing and buying.

The screenshot displays the MMC Market website interface. At the top, there are navigation tabs for 'Suppliers', 'Consultants', and 'Projects', along with a 'Supplier? Register for Free' link and a search bar. The main heading reads '201 results for Wall Cassettes'. Below this, there are filters for 'Actions' (Send Message, Compare), 'Filters (2)', 'MMC Category' (with sub-categories like Volumetric, Structural Panelised, Structural Components, Assemblies, Screw Piles, Riser Cupboards, Lift Shafts, Wall Cassettes, Stairs, Bathroom Pods, M&E), 'Certifications' (NHBC Accepts, BOPAS, Premier Guarantee), 'Turnkey' (Provides Turnkey Solution), and 'Building Element' (Substructure, Basements, Foundations, Superstructure, Fit-Out). The main content area shows a list of suppliers with their logos and brief descriptions: British Gypsum, Kingspan, Innovare Systems, Fast House, Sigmat, Vision Modular Systems, and Paramount Timber Frame. At the bottom, there is a pagination control showing 'Showing 1-20 of 201 results' and a 'Spotted a Mistake? Let us know' link.

Our Vision

Our Vision

Allow for the searching of offsite products and systems based on their specification and application.

Find the Product

Allow for the application of products and systems directly to design files, replacing traditional content with offsite elements.

Apply the Product

KOPE Market

UK - www.mmc.market
US - www.offsite.market

KOPE Construct

app.kope.ai

Engage the Supplier

Enable the market to find and specify offsite suppliers and manufacturers.

Flex the Product

Explore offsite products and systems in 3D and understand their impacts on design.

Procure the Product

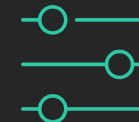

Connect design content to a commercial pathway for purchasing of products directly from the vendor.

Get Involved!

We are looking for the right manufacturing partners to work closely with:

- Understand your products in more detail
- Give you **early** access to the online configurator for you and your customers
- Explore the application of this product automatically

**Verify Profile on
MMC Market**

**Select
Product/System**

**Gather Product
Data**

**Create Product
Page on MMC
Market**

**Create KOPE
Product for Flex
Configurator**

**Grant
Manufacturer
Access**

Design to constructability.
